BENHAMADI GROUP AND GERBIOR THE COMPANY

BENHAMADI GROUP

On 1948, about half a century ago in the east of Algeria, Mr. Mohamed Taher Benhamadi started a humble trade of foodstuffs and transportation: that was indeed the very first activity and the beginning of the brilliant story of Benhamadi Group

In 1954 and progressively, the little trade has grown and became the Benhamadi Group which has selected a location for its first plant in the industrial zone of Bordj Bou Arreridj.

Since then, Benhamadi Group has evolved a strong expansion, supported by efficient and organized human resources to become one of the largest industrial group with several strategic business sectors: electronics, renewable energies, construction, metal construction, business and agriculture.

Now, Benhamadi Group is a leader in the electronic production and its well-known brand Condor is a bestseller in many countries

GERBIOR

Gerbior Mill is the pioneer in its field since its establishment in 2002, offering the best semolina and flour quality thanks to the strong involvement of the management and staffs

In order to satisfy the wants and the needs of various customers and consumers, Gerbior makes heavy investments to continue to improve in terms of quality and volume production

Extra Benhamadi, the New Trademark of Gerbior, has been created on 2013 when the acquisition of Gipates, a local Couscous and pasta manufacture, was concretized.

Since that time, Extra Benhamadi achieved a dominant market position in both of Couscous and Pasta products segments and enjoys a strong brand awareness from Algerian consumers

Gerbior owns 2 other trademarks Lella and Zyna in order to match other targeted consumer needs.

Couscous

Because of the sacred value of Couscous, Extra Benhamadi gives all its passion to deliver a high quality couscous.

Prepared with the best semolina produced by Gerbier mills, Extra Benhamadi couscous is available in fine and medium granulometry.

It is this superior quality of semolina that gives Extra Benhamadi couscous a radiant colour and airy texture guaranteeing authentic flavours and great taste for the traditional couscous.
